Friends of Henry Koch will regret
to learn that he has been in a hos-
pital at San Francisco, California,
since September 8th, being injured
by slipping and falling off a con-
crete culvert, between 12 and 14
feet high. He dislocated and broke
his left shoulder and suffered an in-
jury in the left side of spine. At
last report he was getting along as
well as may be expected though it
will be some time in November be-
fore he will be able to assume his
regular duties.

Ray L. Jennings is back from his
visit to Dallas.

Dr. W. H. Smith was an Alamo

Education is the knowledge of how
to use the whole of oneself. Many
men use but one or two faculties out
of the score with which they are en-
dowed. A man is educated who
knows how to make a tool of every
faculty—how to open it, how to
keep it sharp, and how to apply it
to all practical purposes.—H. W.
Beecher.

It should be the aim of educa-
tion to make men first, and dis-
coveries afterwards; to regard mere
learning as subordinate to the de-
velopment of a well-rounded, solid,
moral and intellectual character; as
the first and great thing, to supply
vigorous, God-fearing citizens for
the welfare of the land.—H. J.
Vandyke.

EMBROIDERY CLUB.

Hallowe'en, with its mystery,
weird witches and Jack-o'-lanterns,
could not have been more appropri-
ately lent throughout the house than
when Mrs. Eugene Mofield threw
open the doors of her home last
Wednesday to members of the Em-
broidery Club and guests.

The suggestion was made that
each one was to draw her tally from
the corn shock man, who sent all
to tables where "42" was enjoyed.
Mrs. W. H. Muenchink held high,
while Mrs. C. Martin held low.

A delicious plate lunch was served
to Mesdames H. Bradley, B. R. Brad-
ley, E. Boon, M. Beal, J. Forgason,
Bradley, G. Martin, H. Merriman, E.
Leinweber, B. Carle, N. Woolls; Mes-
sies Fanny Carle, Willie D. Fly and

Come prepared to make construc-
tive suggestions and help to organ-
ize a useful and beneficial club.

Local, Personal and Business Items from This Busy Burg

CASTROVILLE, TEXAS, FRIDAY, OCT. 30, 1925.

ED. HUEHNER, Local Representative

News or business matter for this page for the week's issue should be submitted to Mr. Huehner or mailed direct to us at Hondo not later than Wednesday night of each week.

We learned too late for last week's issue that Mrs. Sam Tschirhart had the misfortune to fracture a bone in her arm while cranking a car Monday before last. We join the many friends in wishing her a speedy and permanent recovery.

Henry J. Schuehle was down from the ranch both Monday and Tuesday on business.

Joe L. Tondre and Aug. Schneider delivered another truck-load of lumber to Tarpley Wednesday.

Mr. and Mrs. Ernest Ziegenbalg, Lytle, visited Rev. and Mrs. Walter Kralick, and family, here Thursday.

Wm. Rihn was a San Antonio business visitor Friday.

Henry Haass of LaCoste was in the midst Friday on business bound.

Dr. and Mrs. Brymer and family were Alamo City visitors Saturday.

Harry Bongers and sister, Miss Anna, from Potranco visited friends on the Potranco on Saturday.

A short-lived norther sprang up Saturday evening, followed by a soaking rain which kept up all day Sunday in showers. Although the rain did not put out any water, certainly puts a fine season in the ground.

We are certainly sorry to learn the residence on the Bennett

country and there was sold the most representative food of the place.

A most enjoyable evening was spent and a neat sum netted.

The Senior intermediate class of the Methodist Sunday School accompanied by their teacher, Miss Dora Mae Wilson, enjoyed a picnic at the Medina Dam Saturday. A good time was reported by all present.

Both the girls and boys basketball teams challenged Dilley again Friday. The boys' score was 11-15 and the girls' score was 17-16. Although defeated in both games they did not become discouraged but strive to win the championship.

Mrs. Tom Lanford and son, Mr. Lewis Lanford, passed thru Sunday enroute to their home at Dear Creek after visiting relatives in San Antonio.

So Was Mr. Mask Who Tells His Experience.

Are you tired all the time; worn out night and day? Does your back ache as if it would break? Do you suffer dizziness, headaches, rheumatic twinges or distressing urinary disorders? You have good cause, then, to be alarmed about your kidneys. Do as many of your townfolk recommend. Use Doan's Pills—a stimulant diuretic to the kidneys. This Hondo case is convincing.

W. A. Mask, says: "My back was sore and my kidneys acted irregularly. I felt tired, worn out and had no ambition to do anything. I had a dull pain in my kidneys day and night. I heard of Doan's Pills and tried them. Doan's cured my back and I have had no trouble with my kidneys since."

Good Advice for Women

San Antonio, Texas—"While taking Dr. Pierce's Favorite Prescription for feminine weakness I was also relieved of stomach trouble. The 'Favorite Prescription' was exactly the tonic I needed in every respect. I got well shortly after I started taking it. My belief is that what it did for me it will do for others. Therefore I advise all women who are in poor health to take a course of this treatment."—Mrs. J. T. Stauffer, 1522 W. Houston Street.

Justice Hardeman, calls our attention to the fact that the late jury failed to find bills against parties arrested here with still mash plants; in which he brought the evidence was amply sufficient. He said that strict enforcement of the liquor law would be a blessing at least six he thinks.

He pointed out that in Medina County don't seem to be in favor of prosecution of liquor cases. The grand jury at Cotulla recently did the same and was the subject of much criticism; as officers down there had their lives in capturing whole caravans of liquor vendors and smugglers.

Notwithstanding the fact that the state liquor laws are more rigid than the Federal ones and officers and jurors are sworn upon oath to enforce these laws, they persuade themselves that they should be left up to Federal enforcement. They have said "Prohibition won't profit," and prove it by refusing, or neglecting, to enforce it.

DEVELOP SHALLOW OIL.

Christilles Tract in Medina to Be Drilled by Johnson Brothers.

A. G. Kiefer is moving a rig to the Christilles tract in Medina County south of Noonan, recently purchased by Johnson Brothers of Ardmore, Oklahoma, from Judge Wheelless and will clean out the two old wells drilled there some years ago and seek to put them on production. If the production can be developed additional shallow wells will be drilled and the property further developed.

Two wells were drilled a few years ago on the tract, one to about 1-100 feet and the other to about 850 feet. The wells are about a mile south of the test recently drilled by Johnson Bros. on the Tschirhart tract just west of Noonan and they are about two miles west of the Jungman wells drilled recently by Caudill et al. of Kentucky.

The oil in that territory is 32 gravity and oil men have for years been prophesying that someday someone would come along and develop it.—Wednesday's Express.

NOTICE.

To all people of Castroville who own cattle or milk cows:

You are requested to bring your cattle to the Naegelin Vat on Nov. 4th, 1925, as we have found a few ticks on cattle on the townsite and also in lots and pastures. One party has already lost two head of cattle from tick fever and we want everyone to dip a few times to prevent anyone else from losing cattle.

Respectfully,
H. F. WURZBACH.

HONDO BOYS OUTPLAYED AT PASSING GAME.

H. H. S. Goes Down To Second
Defeat of Season at Hands of
Uvalde.

From The Huajillo Leaf.

The game was called at 3:30 Saturday, October 17.

The play started with Uvalde receiving. Uvalde immediately began her aerial attack, and succeeded in keeping the ball in Hondo territory most of the time. Neither side seemed to be able to gain thru the line and punting was resorted to frequently. At one time the ball was on Hondo's three-yard line, but a 40-yard punt by Bradley shifted the play to mid-field again.

Hondo managed to carry the ball down the field and the quarter ended with the ball on Uvalde's 20-yard line.

At the beginning of the second Uvalde intercepted a pass and ran for a touchdown. Uvalde passed for the extra point, but failed. Hondo made 20 yards on a fake in this quarter. The quarter ended with the ball in mid-field and the score 6-0 in Uvalde's favor.

The second half opened with Uvalde renewing her aerial attack. The ball was carried down the field. Uvalde completed a long pass over the goal line. Uvalde gained the extra point by a place kick. A few minutes more play and the ball was in Hondo territory again. Hondo fumbled and Uvalde gained the ball and ran for touchdown. Uvalde failed to kick goal. The third quarter ended with the ball in Uvalde territory, and the score 19-9.

In the last quarter Hondo received a serious setback in the injury of Metzger. Hondo tried a long end run but was downed for a loss. In the next few minutes of play the ball was carried to Hondo's 40-yard line, where Uvalde completed a 20-yard pass and ran for a touchdown. Uvalde failed to make the extra point.

The rest of the game was fought on Uvalde territory. The final whistle blew with the score 25-0 in Uvalde's favor.

For Hondo, Rath put up the best defensive work, while Windrow and Schuehle stood out on the offensive. Tate and Barnett of Uvalde stand for their team.

Hondo was beaten by forward passes, as neither side was able to gain thru the line.

Hondo attempted 24 passes, and completed nine for a gain of 83. Uvalde attempted 24 and completed 8 for a gain of 80 yards.

The line-up follows:

Uvalde (25)	Hondo (0)

HONDO HI SWAMPS LA PRYOR.

Visitors Go Home With Little End
Of 67-0 Score.

From The Huajillo Leaf.

The game was called at 3:00 Saturday, October 24.

Hondo was able to pierce the La Pryor line at will. Most of the game was played in La Pryor territory while Hondo's goal line was never in danger of being crossed.

The game started with Hondo receiving. Hondo immediately made her first touchdown, Mofield carrying the ball across on a 15-yard run. Windrow kicked goal for extra point. Our next touchdown came when Schuehle intercepted a pass and ran 55 yards to the goal line. Windrow again kicked goal for extra point. The quarter ended with the ball in La Pryor territory and the score 14-0 in favor of Hondo.

At the beginning of the second quarter Mofield carried the ball 12 yards for Hondo's third touchdown. Nuel failed to kick goal. In a few minutes the ball was back under the shadow of La Pryor's goal posts. Mofield carried the ball 7 yards for another touchdown. Windrow kicked goal for extra point. Schuehle carried over for our fifth touchdown. Hondo passed for extra point. The half ended with score 34-0.

The second half was a repetition of the first. In the first few minutes of play Schuehle carried the ball over for another touchdown. Windrow kicked goal for extra point. C. King made the next touchdown around right end. Windrow failed to kick goal. Bradley caught a pass and made the next touchdown. Windrow kicked goal for extra point. The third quarter ended with the ball on La Pryor's 17-yard line, and the score 54-0.

Hondo made 2 more touchdowns in the last quarter. Mofield caught a pass and ran forty yards for the first and C. King ran 20 yards for the last one. Windrow failed to kick goal the first time but added a final point on the last one. As Windrow kicked the last goal, the final whistle blew with the score of 67-0.

For Hondo the entire team did good work, while the back field did exceptionally well. Mofield made four touchdowns, Schuehle, three; C. King, two and Bradley one. Out of nine attempts Windrow kicked goal 6 times.

M. Davis, captain and quarterback of the visitors, was the outstanding man on the La Pryor team. On the whole, La Pryor played hard, clean, foot ball and they will be remembered in Hondo, as true sportsmen.

LOGICAL INFORMATION.

By J. H. Collard.

Four months ago the Dallas geologist interviewed me on the Balcones fault. Certain parties had been claiming that the great oil reservoirs along through Central Texas were on this fault. I showed them above Rockwall county in a southwesterly direction through Dallas, Ellis, Hill and Tarrant counties outcropping at the "Lovers Leap" at the mouth of the South Bosque, and passing on through Johnson, Travis and Hays counties plainly at San Marcos and elsewhere else in the State; and that from there. Up to that time the fault line had never been marked on the geological maps of Texas; but the first Bulletin from the geological department of the University of Washington after this incident marked the fault exactly as it was and showed that at San Marcos it ran west to the Devil's River.

The town of Hondo is about halfway between the Balcones and the line of contact between the Permian and the Upper Carboniferous and it is along this line that the great reservoirs of oil have been discovered. The rule being that along the line of contact between the two ages where the folding is most intense is the best place for oil. Texas has three distinct physical phenomena that differentiate it from any country in the world. First, it has the "Timbers" stretching almost the length of the State. Second, it has the "Red Hills" which girds and guards the Llano Estacado or "Plains" nearly all the way. Third, there is this Balcones fault and it has a geological significance that doesn't belong to the others. It is believed to be an old "shore line" and the Gulf of Mexico lay along it for thousands of centuries. The doubtless caused by the fact that took place between the Permian and the Carboniferous ages. If you look at its extreme northern end you will find that there is a "throw down" of approximately five hundred feet of organic matter, or vegetation, on that side of the fault differs from that on the south side. Indeed East and West of the fault the stratifications are broken up and so dislocated as to sometimes widen out for four or five miles and inside of this dislocation there seems to be a gulf of conglomerate masses coming from one to another in a confused manner, that you can depend on the surface exposures to tell you much of what is found as the drill goes down. In a future article I will undertake to show its relation to some of the great oil reservoirs of Texas, and explain the origin of the oil.
